

LUCIDPIANO

HANDCRAFTED EXCELLENCE BY BLÜTHNER SINCE 1853

LUCID Piano embodies Haute Couture Grand Piano Design. Refined luxury, contemporary and futuristic elegance escorted by the unsurpassed Blüthner's Pianoforte Golden Tone. Exceptional customized variations will make the Blüthner Crystal Piano elegant instrument enhance the interior decoration of any mega yacht, residence or hotel.

Each of our Grand Pianos is individually manufactured by Blüthner Pianoforte Fabrik in Leipzig, Germany.

Modern technology, choice materials, a touch of magic transparency, supervised manufacturing and final quality inspection by German Master craftsmen guarantees a lasting experience of unrivalled musical excitement. An advantageous value for the money, paired with a longstanding experience (since 1853) in traditional German piano craftsmanship are a guarantee for the consistency of our quality and an enjoyment for generations to come.

The iconic grade Blüthner-Lucid Grand Pianos can be customized with the most exclusive selection of high gloss polyester colors or veneer finishes in a fully or semi-transparent version with a matching frame and soundboard color. For the fully transparent version, Blüthner Pianoforte Factory reengineered and redefined the process as to how truly create a fully transparent Grand piano without bulky acrylic support beams and countless bolts. This instrument's translucency gives it the look of a fragile glass sculpture, while the durable acrylic design ensures that it will continue to look pristine.

Modern Piazza

This unique semi-transparent modern grand piano features a special curved V-shape leg design that adds stability as well as modern piazza. Realized in mixed materials the wooden rim (the body) can be finished in the veneer and/or color of your choosing. The new design element is a precious metal strip that traces the circumference of the piano's body, the TIARA. The TIARA can be made of chrome, gold or rose gold. Acrylic lid exposes the remarkable beauty of the piano action and adds just the right amount of transparency to this customized grand piano so that it refracts the light as the precious stones glisten in the royal tiara.

LUCID
BUTTERFLY

The World of Nature as an Inspiration.

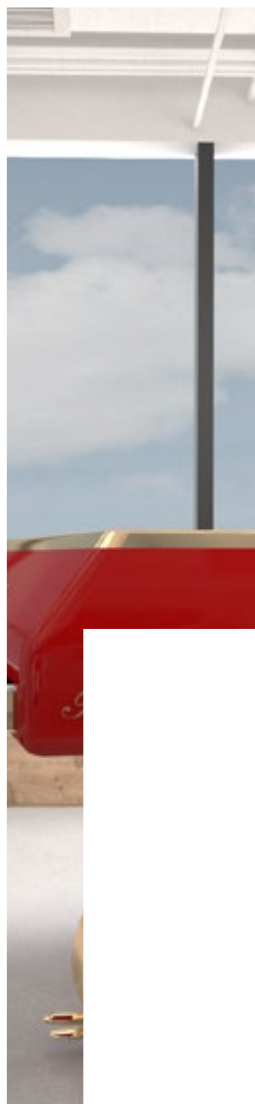

This ethereal creature of a piano is an evolutionary sibling of Hive Elegance, only this time the inspiration is the wings of the Monarch Butterfly. The piano lid of Butterfly is made to look like a giant membrane, punctuated by the color-blocked transparent acrylic, turning this functional part of the piano into a stunning vision of bionic beauty. The music stand is also wing-shaped. In its asymmetrical sweep, it seems to be a living and breathing part of this revelatory designer piano. The semitransparent body is supported by elegant, curved legs. The matching bench is transformed into a cushioned half-chair, with each bionic curve repeating the butterfly motive of the piano.

Imperial Prestige

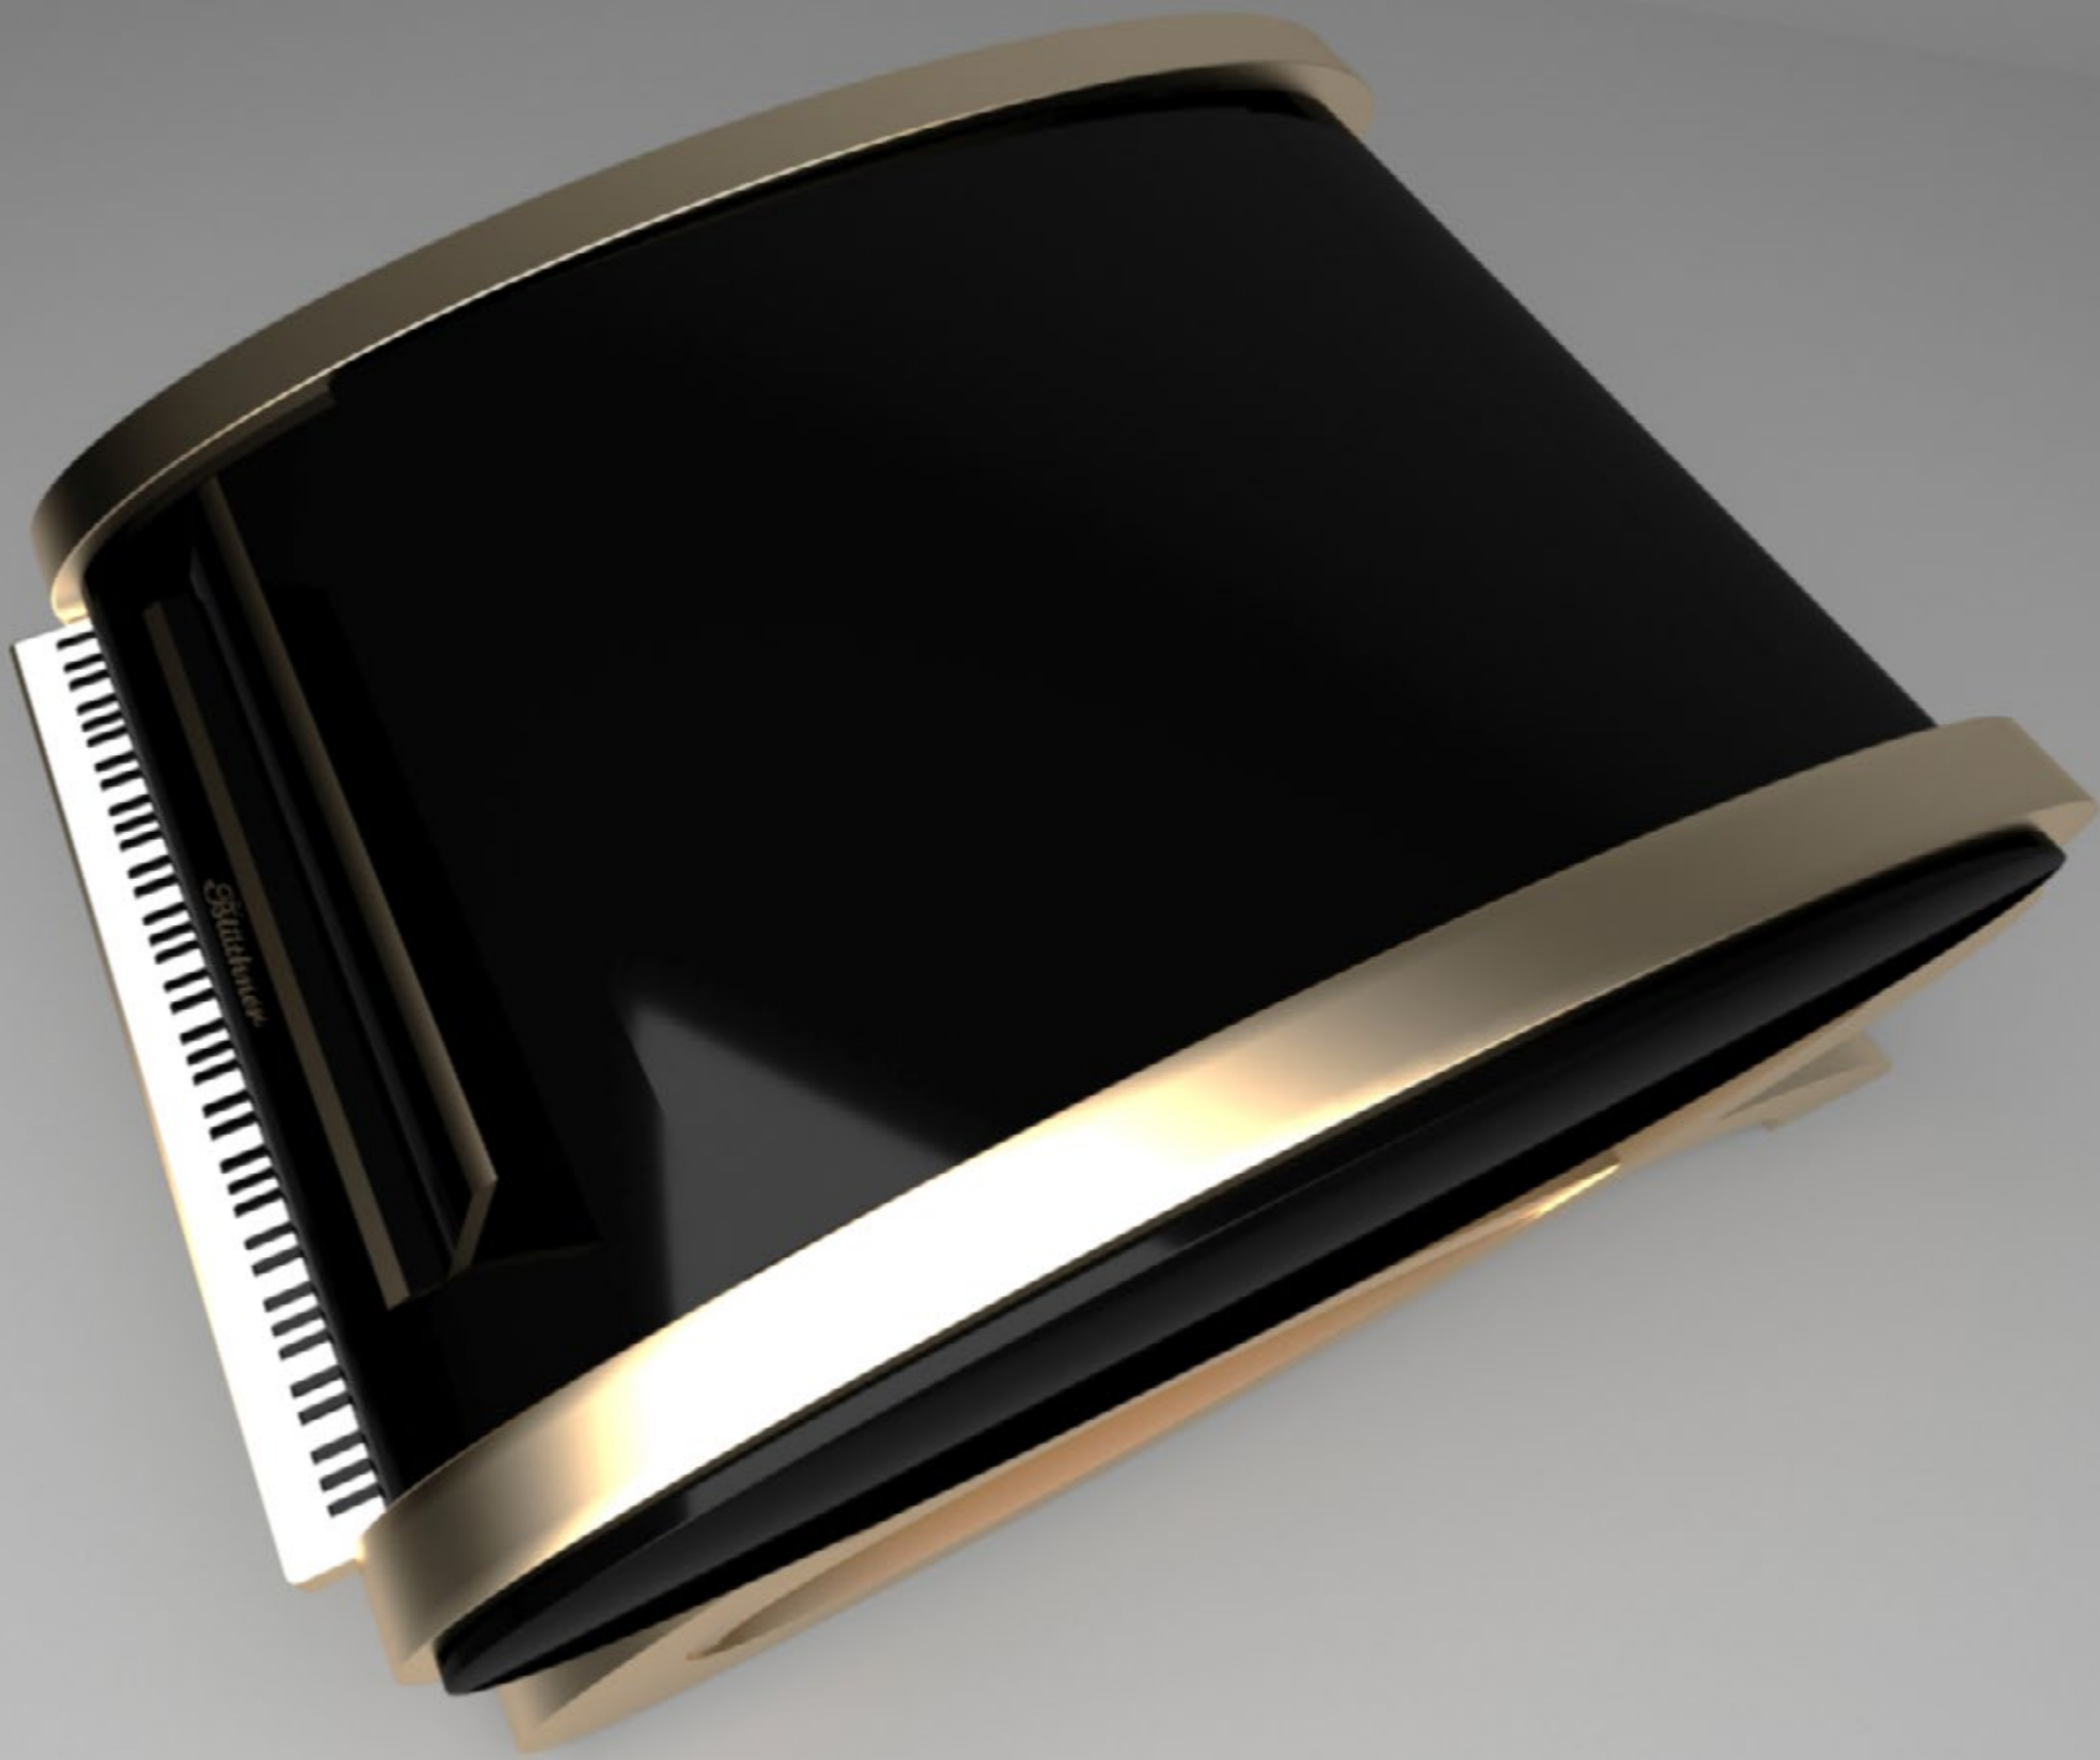

The ethereal beauty of Gold-leafing has been worshiped since antiquity. The golden gleam of the surface elevates a gilded object into the realm of a treasure. The timeless classic shape of a perfectly proportioned Blüthner grand piano comes alive in a new way, covered entirely by a 24K Gold leaf. The intricate patterns of a hand-applied leafing are unique and inimitable, catching the light in their golden splendor. The gilding of the body matches the gold of the iron plate, creating an ultimate vision in gold. Like a crown jewel, Gold Leaf will astonish anyone who enters the space where it resides. Gold Leaf is available in all standard grand piano sizes.

Platinum leaf

For those who desire absolute luxury that transcends what is thought to be possible we have Platinum. Hand-applied platinum leafing is the most precious material to cover the piano with. Unlike silver, platinum does not tarnish over time so Platinum Leaf will bathe eternally in its silver glow. The classic shape of the body looks poetic and modern in a cool sheen of platinum leaf. This ultimate jewel of a piano is at once simple and lavish, understated, and awe-inspiring. Platinum Leaf is available in all standard grand piano sizes. Contact us for certain customization options.

LUCID
GOLD LEAF

LUCID
INFINITY

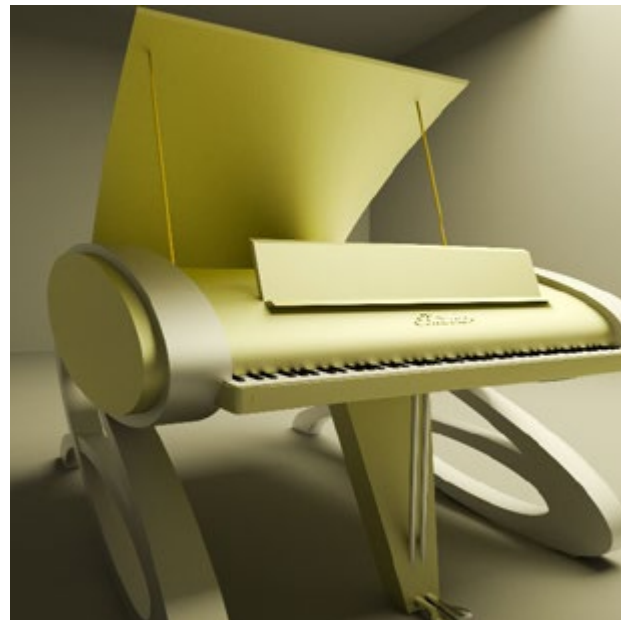

Forever and a Day Pianoforte

An embodiment of luxury and futurism, Infinity has a shape like none other. Not a traditional grand piano, it is a daring example of what a contemporary piano manufacturer can create. This piano is borne of symmetry. Oversize ovals on the sides form its composite materials body. The oval shape is echoed in the design of the legs. A long and narrow music stand emphasizes horizontality, creating a T-shape with the pedal lyre's inverted obelisk.

The rectangular shape of this piano is sleek and modern, allowing the lid to be opened up directly facing the pianist. Unexpected, glamorous, and ultra-futuristic. Infinity comes with a matching custom bench.

LUCID
INFINITY

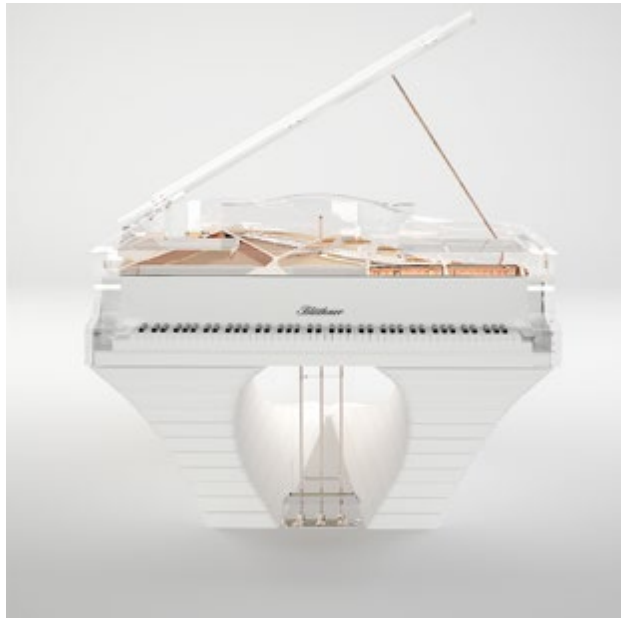

LUCID
LEGACY

Exceptional Amazing and Exquisite

Legacy is an evolution of our best-selling Elegance model. The perfect semi-transparent body is wrapped in crystal clear acrylic. With a transparent lid and music stand, it is the lower part of Legacy that makes a bold statement. A stunning pedestal replaces traditional legs, giving Legacy a 'lift' with its wave-like shape. Floating in the air the tail of the piano now resembles the stern of the ship, which is echoed in the beautiful design of the matching bench. The composite material pedestal parts in the center so make room for acrylic pedal lyre as well as light passage, creating a modernist piano of your dreams.

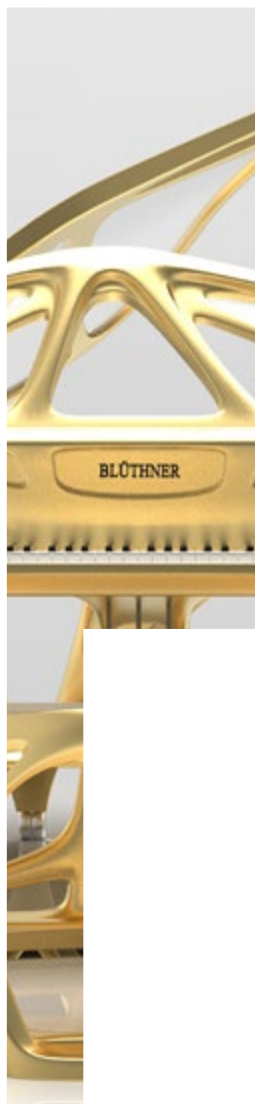

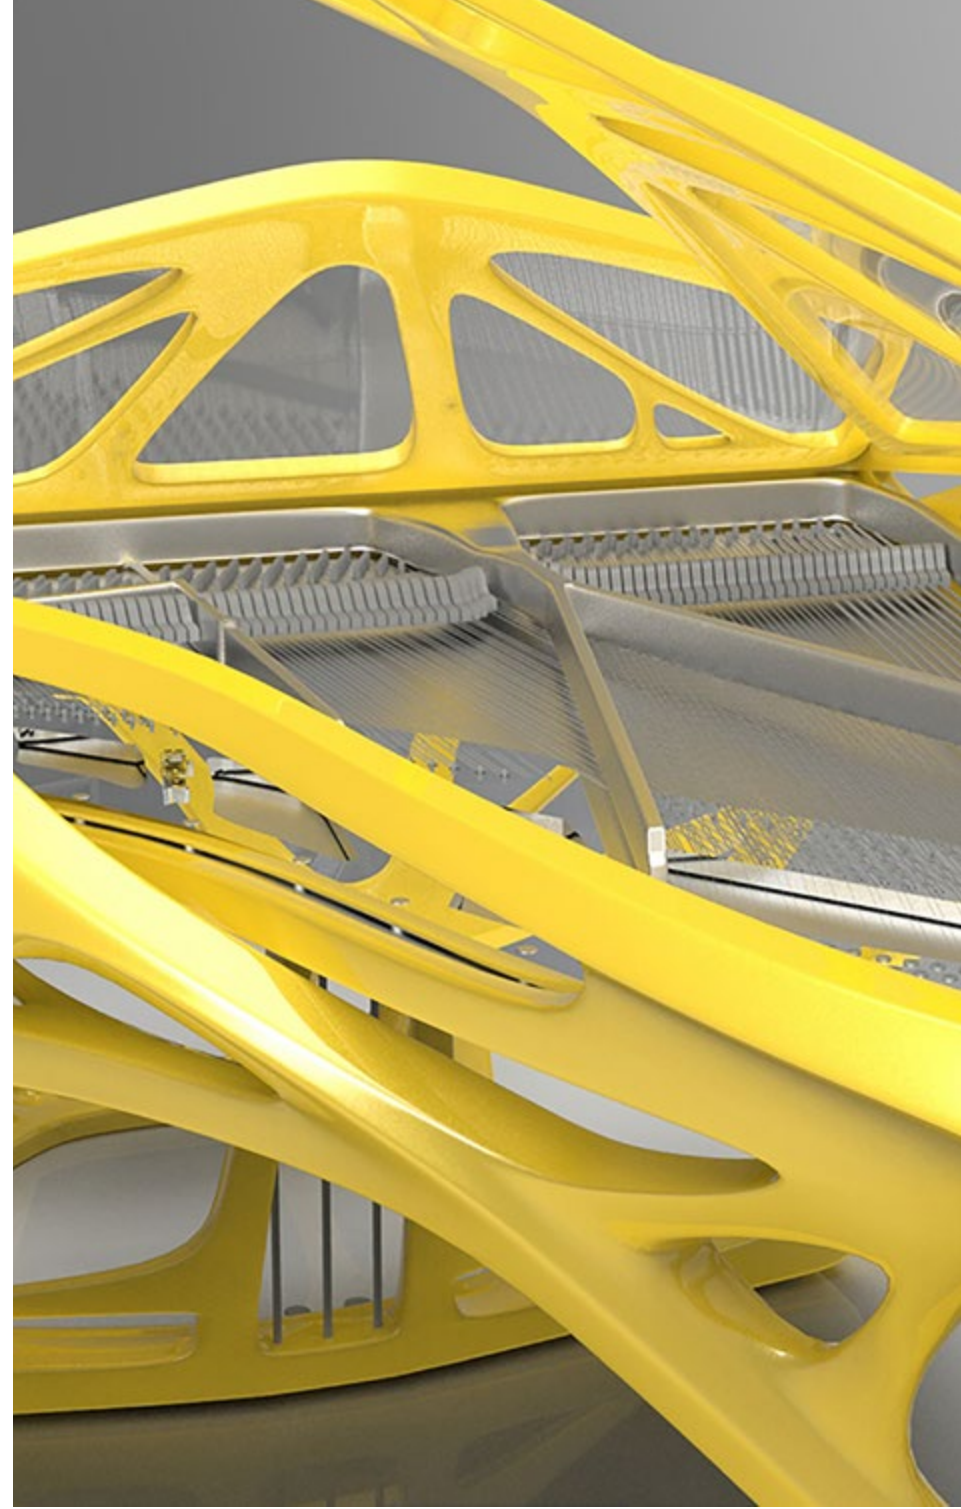

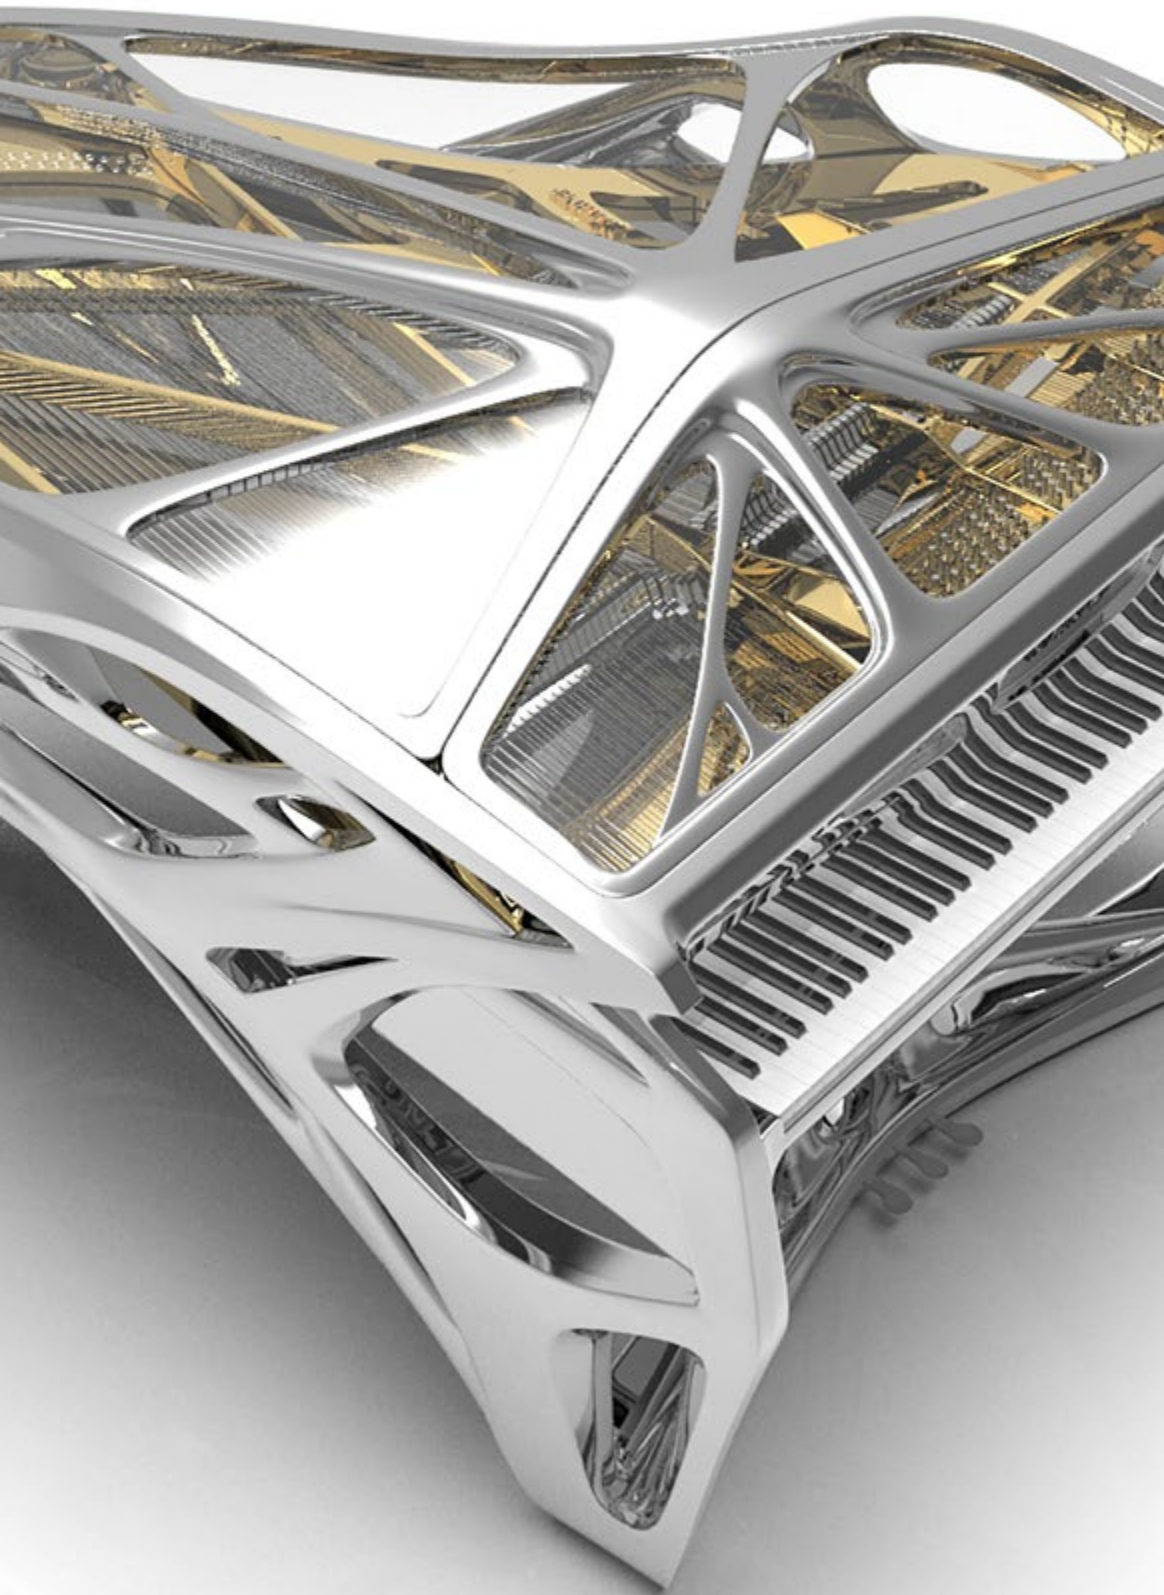

LUCID
LEGACY

BLÜTHNER

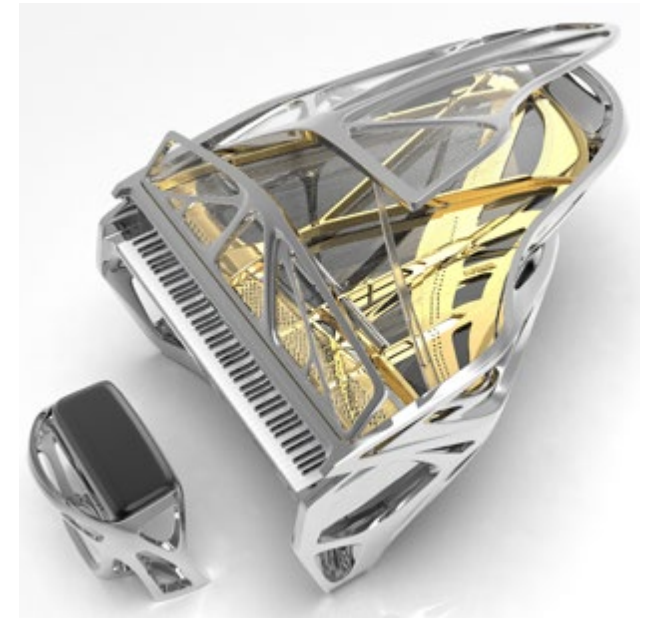

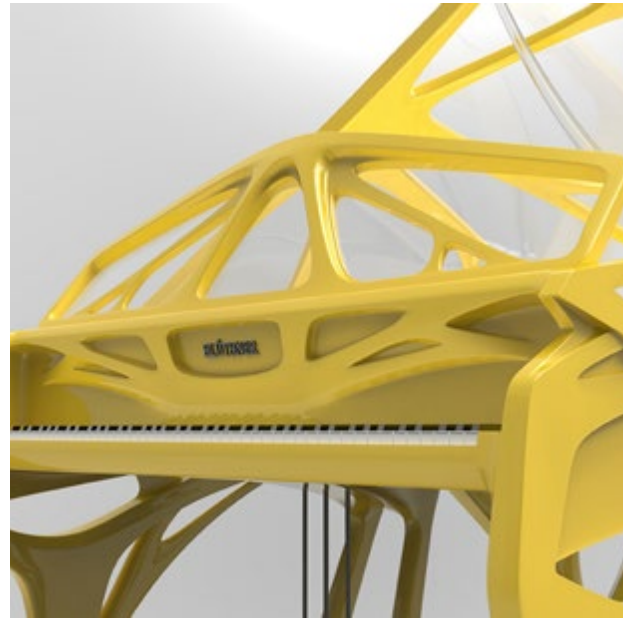

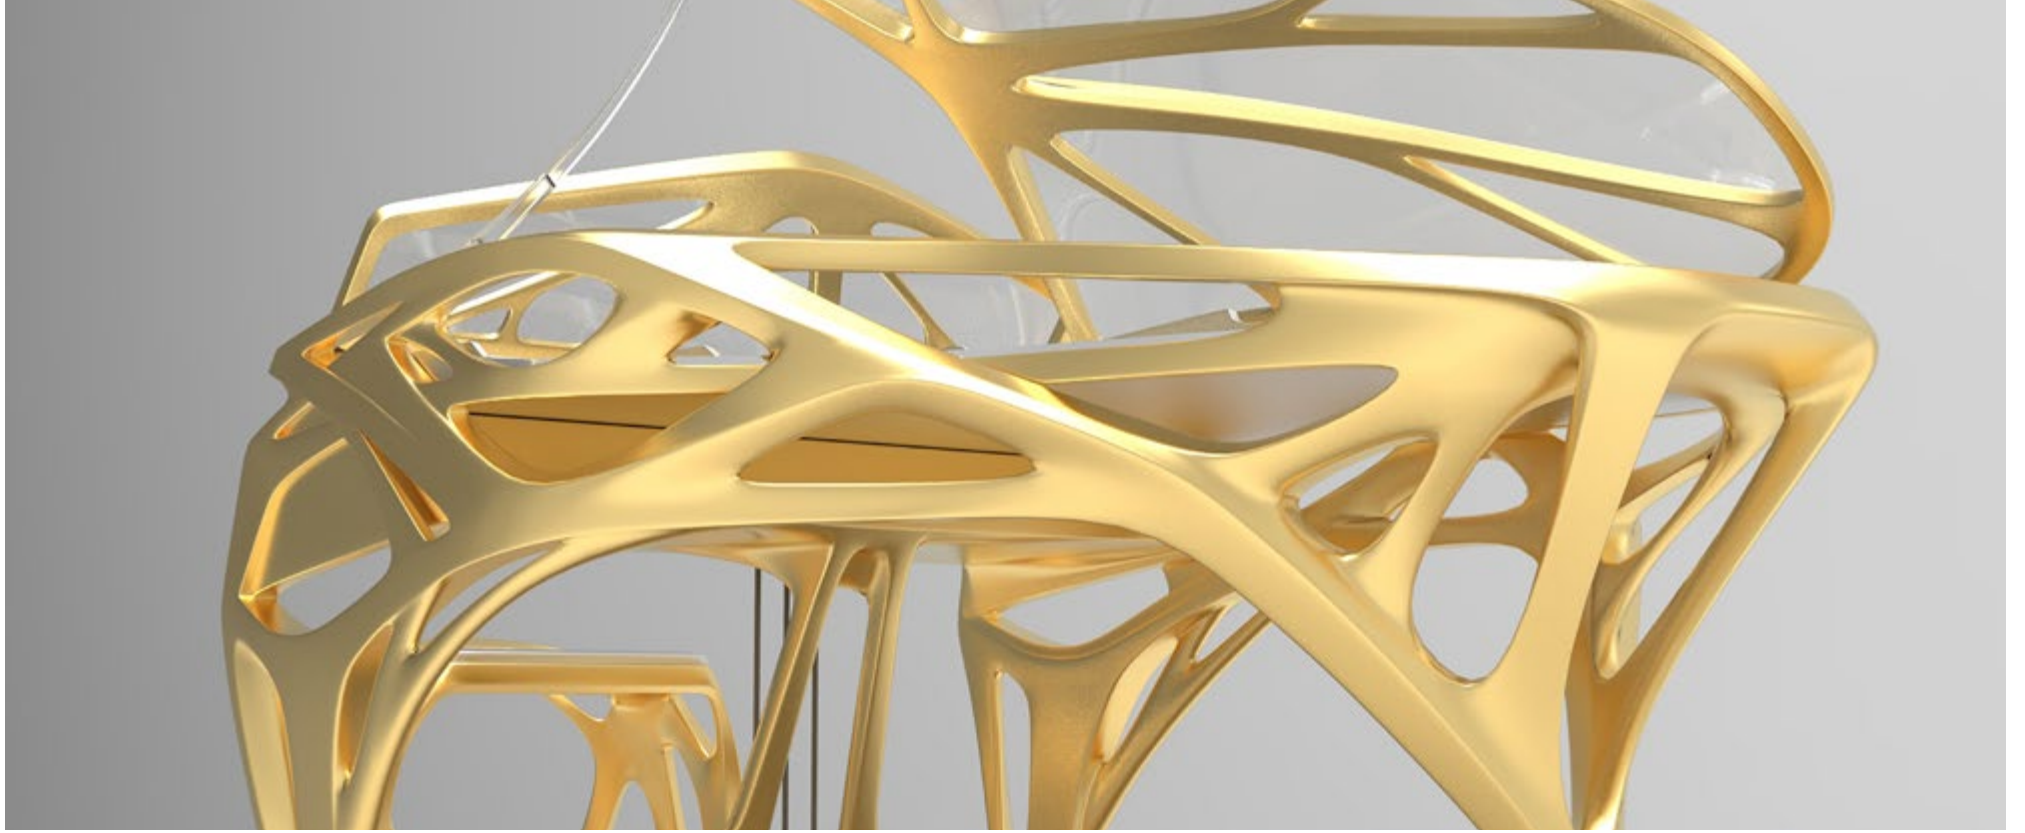

LUCID
EXO

Quintessence of Futuristic Design

Lucid EXO the quintessence of futuristic design and craftsmanship, featuring MONAD Studio's signature 3D forms. The radical three-dimensionality of the EXO creates a sense of futuristic opulence highlighted by the seamless, fluid elegance of the sculptural EXO skeleton that frames the Grand Piano's instrumental core. Its radical new forms invoke a sense of arresting elegance, blending cutting-edge 3D technology with Blüthner Pianoforte Fabrik sonic expertise.

Exciting Possibilities

We are delighted to introduce a new member of our transparent pianos family: Translucid Upright. Never has the upright instrument presented such exciting possibilities! The top and bottom acrylic panels reveal the intricacy of stringing, German piano action and solid spruce soundboard. But you get to be the designer choosing from available veneer finish, optional stencil image for the side of the instrument.

TRANSLUCID UPRIGHT

TRANSLUCID DESIGN

New and Exciting Acrylic Panels

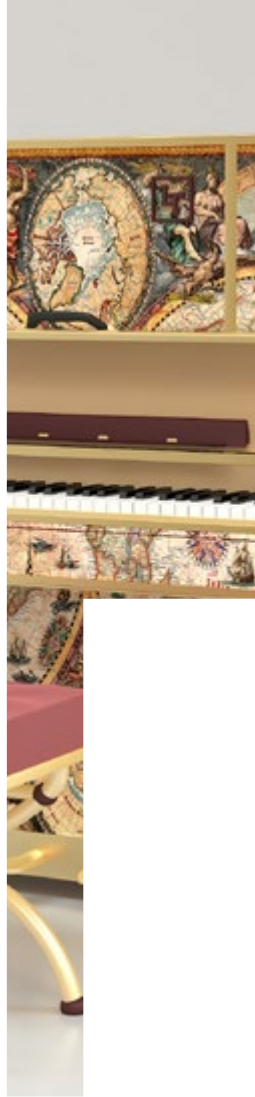

The new acrylic panels have inclusions of petals, gold and silver particles as well as grass that give depth and drama to their perfect transparency. As all technologies evolve forward the beauty of acrylic enters a new stage: custom inclusion and color graduations that truly deliver it to the realm of jewel-like creations. And that is how we adorn our Translucid Upright. Be the designer and select the kind of inclusion panel, inclusive engraved Skylines of your choice, you wish your Translucid Upright to possess. As with all Translucid pianos only the best materials are used by Bluthner's artisans at our fabled German factory.

TRANSLUCID DESIGN UPRIGHT

Traveller Upright

If you thought the upright pianos are boring, think again! Traveller is inspired by the premium luggage trunks of a jet-setter variety. This design plays off of the square shape of the upright piano, outlining each verticality and horizontality with a beam and capping each corner, just like the luxury trunks of the iconic fashion brands. The front of the piano features decorative belt straps while the lid and the side handles are fashioned like luggage handles. Indeed there has never been an upright piano frivolously witty as Traveller.

- For the Antiquity lover, there is a Renaissance map of the world pattern.
- For a classic luxury lover, there is a diamond quilt in charcoal and gold, with burgundy straps
- For the glamorous trendsetter - a white quilt with rose gold and burgundy straps

PERSONALIZE YOUR PIANO

A bespoke experience while personalizing your Lucid grand piano. Over 3 million combination options are available: different wood type veneers for the Rim or the Belt in the Lucid iDyllic Excellence piano model and also different colors, which could be selected from the extensive RAL color chart for the Rim or the Belt in the Lucid iDyllic Excellence model

the cast iron plate can be any RAL color but can be specially electroplated in: Chromed Silver, true to live 18 kt Gold, Rose Gold, Titanium, Satin Gold, Copper or the standard Brass Gold finish.

Extensive color choice for the soundboard: from varnished wood to any RAL color. Hardware parts like hinges, supporting rod, wheels and pedals: usually brass, chrome, rose gold but other colors are available as well.

Besides personalizing your Lucid Piano we can place a name or title on your personalized grand piano, even having your name embroidered on the leather rim of the PH Design piano. Our design team is open to your creative suggestions. At Blüthner Pianoforte Fabrik, Lucid Pianos haven't come across something that couldn't not be done as of yet.

With Blüthner's artisans our clients have shared some of the most creative design choices, making their piano a truly Unique and Personalized Grand Piano.

THE PLAYER SYSTEM

Your virtual pianist 24/7.

The exciting thing about this system is that technology has developed to provide quality music production.

Does not interfere with the Piano Action

The magic is what happens next. Because of the location of the mechanism you can play the piano while it is playing itself, too! In other words – you can duet with ‘yourself’ or rather with your piano. You can also record on top of the pre-recorded track making piano duets, two-piano concerti and all sorts of wonderful chamber music come to live in your own living room. And of course if you don’t play the instrument you can enjoy the thousands of titles that are available on the PianoMation app. New tracks are added all the time so you will never run out of the exciting new music to listen to and marvel at. Self playing piano is a focal point of your home – it will gather the family and friends and turn any party into a wonderland! Whether you play your baby grand piano yourself or just enjoy music it will transform your home into the one from fairytales.

Concerts in your home

Self-playing pianos have become exceedingly popular in recent years as the WIFI technology evolved to the current level of sophistication so that one can easily and seamlessly activate the wonder of self playing piano. The vision of a baby grand beginning to play all by itself simply never gets old. You and your friends can share your musical favorites by a touch of any device and the piano will perform for you. You can also ‘invite’ the titans of piano world into your home and have a private performance by the likes of Horowitz, Rubinstein and Chick Corea. Self playing mechanism is integrated to seamlessly and discreetly that it will never interfere with playing piano in a traditional way. In fact you will never even know that your grand piano has a self playing component. The latest developments in technology make playing pianos interactive and fun whether you are a beginner, an amateur or a professional. For a composer it opens up creative possibilities that otherwise would require a whole studio to be available.

EXTENSIVE MUSIC LIBRARY

If you do have music loving friends then you are sure in for a treat. The extensive library of accompaniments will make your self playing piano a single most fun place to be around – and many a song will be sung! For children who are taking piano lessons it can also provide a remarkable tool of education. For piano students this new generation of self playing features provides an opportunity to record yourself and listen to playback so you can self correct or send it to your teacher for feedback. When you get a self playing practice bundle it also gives you an option of silent practicing which is a tremendous benefit in urban environments wherein noise levels and neighbors might be an issue.

QRS PNOmation

PNOmation is designed to support the evolutions of its technology and therefore ensures that all subsequent upgrades to the system will have full integration capacity. This forward thinking guarantees that you will always have the latest and most advanced features in the exciting world of self playing pianos.

Benefits of Factory Installations

All quality player piano systems work best if factory installed. As the elaborate mechanism it integrated seamlessly into the acoustical instrument it requires special skills and know-how of trained artisans to carry out this process. Each grand piano has different micro components, dimensions and measurements making aftermarket installation potentially less-than-optimal when it comes to delivering the best possible results.

Best in Class Solenoids

PNOmation uses longer fully encased solenoids, which deliver better sound at soft dynamic. They are also corrosion-free and are self-lubricating. The Controller User Interface is fully integrated into the body of the grand piano (or upright) so there is no visible ‘box’ hanging anywhere on the instrument. The actual technology is seemingly simple – as all things genius. The solenoid is installed at the back of the key and the infrared optical sensor determines the velocity and speed of the impact. It simply pushes up on the key end (conversely to finger striking it downwards) which activates the hammer which strikes the string. Clearly there is much more to it than just that. In today’s self playing pianos the super computer calculates the nano-seconds’ of the action to make sure the results are indistinguishable from the live performance.

THE PNOMATION ENGINE

THE PNOMATION ENGINE SOLENOID AND PLUNGER

TUBULAR SOLENOID:

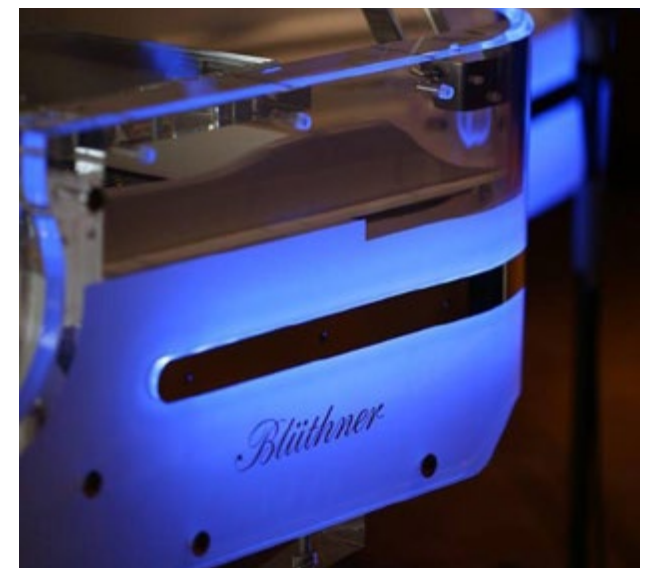

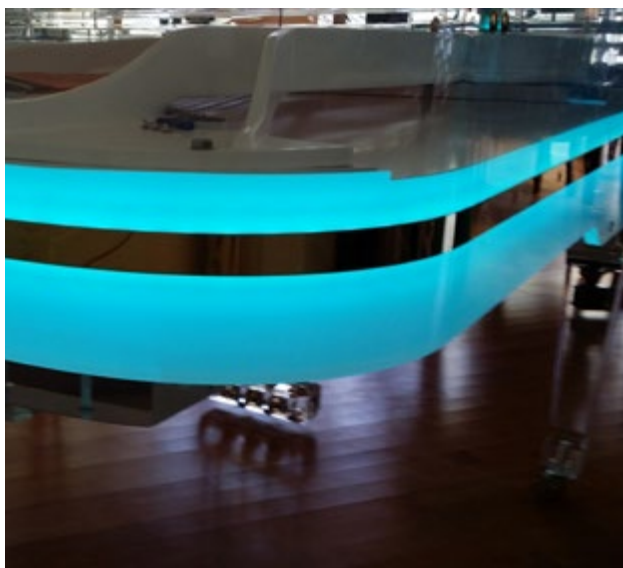

The longer tubular body design delivers exacting control while playing pianissimo (very soft) and maximizing force while playing fortissimo (very loud).

LED ILLUMINATION

LED illumination with full Rainbow colors is available on most custom-built Lucid grand pianos. Indivisible to an eye, LED lights bring a new dimension of ambiente to your music room.

UNIQUE YACHT EDITION

The Unique Yacht Edition (UYE) is more than just a combination of beautiful designs and technical ingenuity. The results of the UYE design, is combination of craftsmanship, innovation and luxury.

A special and unique treatment is given to all the components of the UYE models. Fixed and removable sea fastening possibilities is available upon request.

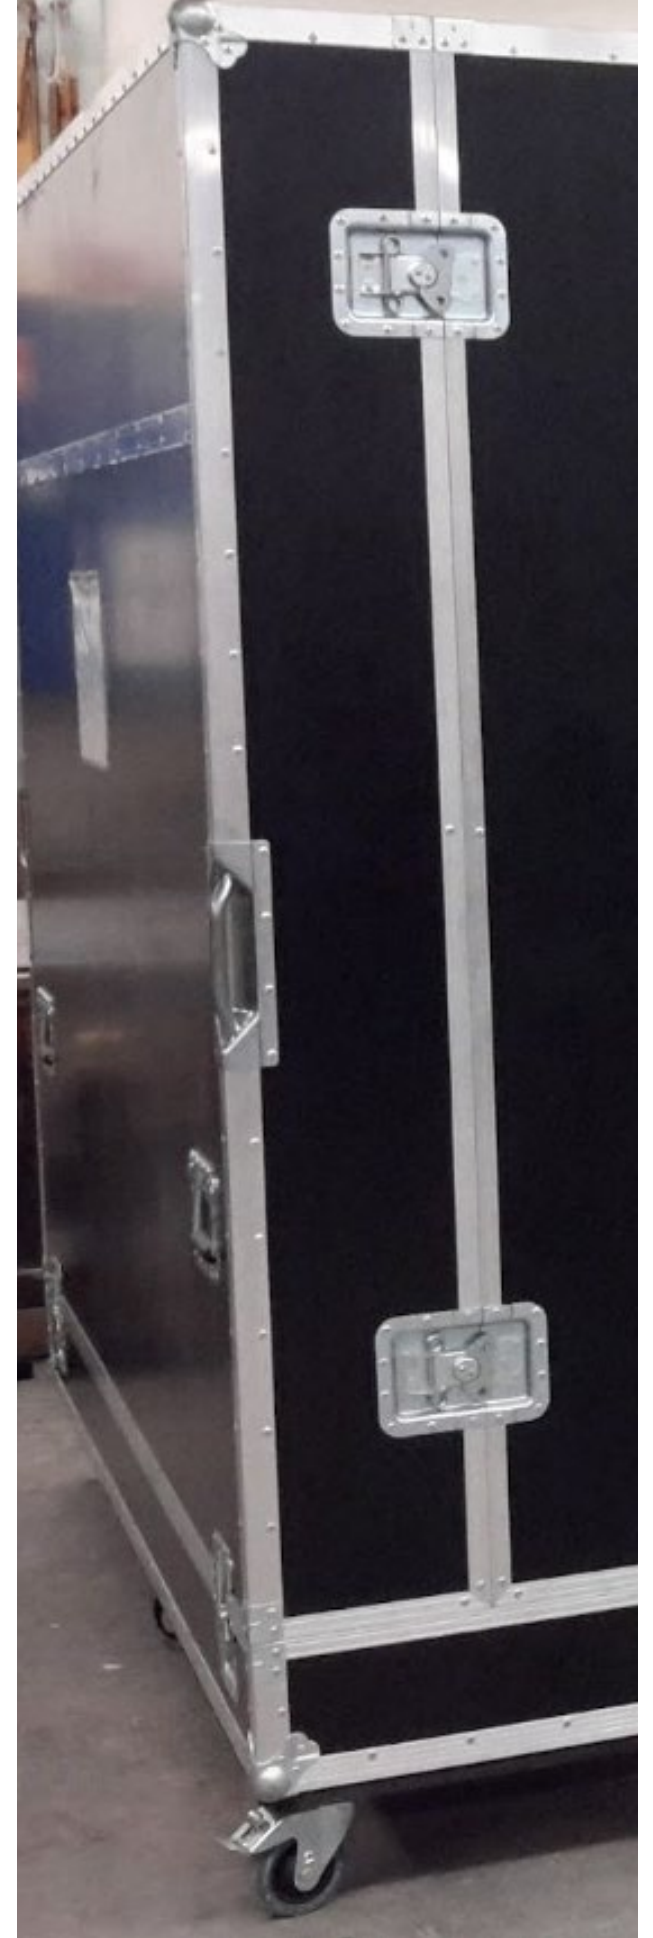

The Cast Iron Frame, Soundboard and Inner Rim are treated with marine coat painting. Abrasion Resistant Marine Acrylic is used for the outer Rim. For the Lucid iDyllic Excellence models the counter frame has been manufactured with Marine Grade 316 stainless steel. High-gloss Stainless Steel Marine Grade 316 rigging solution has been applied to sea-fasten all of the UYE models.

WORLDWIDE DELIVERY

We use White Glove Worldwide delivery service that specializes in pianos. In case of international shipments wooden crates are used that are compliant with international rules and regulations. Pianos are typically flown by air freight and are always fully insured. Lucid Pianos can handle all customs, import duties and final deliveries. Feel free to enquire. Final delivery is arranged using a network of professional piano movers and piano technicians that can handle any task including the crane services to lift the piano through the window or balcony if that is deemed necessary. Our team is always present to ensure the superior quality of handling and assemblage of the piano in the final destination. Feel free to provide us with the images of the final location of your Lucid Piano and we will be happy to recommend suggested placement for the instrument. We can also provide you with more information on the long-term caring for your new and Unique Lucid Piano.

PIANO WARRANTY

Once manufactured each of our Lucid Pianos is being shipped from the factory to the final destination. All Lucid Pianos are backed by a 5 year warranty on the piano and a 30 year warranty on the Evonik Acrylic by the Blüthner Pianoforte Fabrik.

Each piano is meticulously inspected in our factory before being crated in order to arrive in perfect condition. After the piano settles over the course of a couple of weeks after delivery, we will dispatch a professional piano technician to make sure everything is functioning perfectly.
